## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 2, and 4-9 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1 and 6 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claim 1, a "south bridge chipset comprising a test port connected to the first output port of said CPU for determining said operating voltage of floating point error detection of said CPU."

As in claim 6, a "CPU further comprising a second output port connected to a signal input port of said control circuit for transmitting a predetermined signal;" and "determining information contained in said predetermined signal according to said operating voltage of floating point error detection of said CPU."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip Guyton whose telephone number is (571) 272-3807. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Beausoliel can be reached on (571) 272-3645. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
